

STREET EVANGELISTS UK 2023
NEWS AND DEVELOPMENT REPORT

Street Evangelists UK has expanded rapidly over the last twelve months and has been bolstered by the launch of our Website in Autumn 2022. Over the same time we initiated our Facebook, Instagram, and YouTube Channels of communication. Johnny and I (Pete), also post regularly on TikTok with reference to the Street Evangelists UK ministry.

Our logo and contact details are appearing on other ministry's material too. Our first platform for communicating between members was our WhatsApp Group (created 24 October 2021) which now has 49 members. This still remains very popular for news and mutual encouragement.

There has been an increase in our Team leadership too, for which we are hugely appreciative, especially as many have to fit this in with work, family and church commitments. We continue to make and supply boards for others from a range of nearly a hundred designs. One is currently in use in Nigeria, and another should be in Kenya shortly. We have about eighty boards in use in various UK locations.

Our need for Gospel tracts etc continues to expand, with regular monthly orders. We now have some of them custom printed with our logo and contact details. About a third of our tracts are given to us or sold at very low price, others we pay at normal commercial rates. I estimate that our Peterborough Team has distributed about 150,000 items over the last twelve months. As funds have permitted, we have purchased further equipment for preaching and filming. Expanding into new territory for evangelism is happening, and of course, this requires prayerful planning and funding.

We are currently one third of the way through our financial year and we have a turnover of £1357, so if we project that forward, we would be about £4000 at the end of our first year. As you may remember, we hope to qualify for Charitable status, and one of the requirements is that we have a £5000 annual turnover. So, folks, please pray for an increase in God's financial blessing upon our ministry.

Much of the development of Street Evangelists UK over the past year has been due to the massive enthusiasm and godly ideas of our dear Brother Johnny Basedeke. His personal friendship and love for the ministry can only be explained by God's Anointing and Providence. God has continued to provide for Johnny in his full-time ministry with us. Praise God. We have experienced enormous blessings as our obedience to God and love for our Lord Jesus has sent us out in the Holy Spirit to reach the 'lost'.

This is a wonderful ministry , which I know has been a blessing to many .So, at whatever is your level of involvement we thank God for you , and all you do.

To God be All the Glory.
